

c_style_task::c_style_task

```
graph LR; A[c_style_task::c_style_task] --> B[c_style_task::c_style_task]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'c_style_task::c_style_task'. The right box is gray with a black border and also contains the text 'c_style_task::c_style_task'. The blue arrow indicates a pointer or reference relationship from the object in the left box to the object in the right box.
