

`std::pmr::memory_resource`

```
graph BT; A[cache_aligned_resource] --> B[std::pmr::memory_resource]
```

The diagram illustrates an inheritance relationship between two C++ memory resource classes. At the bottom is a gray rectangular box containing the text `cache_aligned_resource`. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text `std::pmr::memory_resource`. This visualizes that `cache_aligned_resource` inherits from or is a specialization of `std::pmr::memory_resource`.
