

fqueue::operator!=

fqueue::operator==

fqueue::cbegin

```
graph LR; A[fqueue::operator!=] --> C[fqueue::cbegin]; B[fqueue::operator==] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders, one above the other. The top box contains the text 'fqueue::operator!=' and the bottom box contains 'fqueue::operator=='. On the right, there is a single gray box with a black border containing the text 'fqueue::cbegin'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box. The top arrow starts from the right side of the 'fqueue::operator!=' box and the bottom arrow starts from the right side of the 'fqueue::operator==' box.
