

`list::push_back`

```
graph LR; A["list::push_back"] --> B["list::node::node"]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text `list::push_back`. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text `list::node::node`. Both boxes have a thin black border.

`list::node::node`
