

First

Second

`_first`

`_second`

`pair< First, Second >`

The diagram illustrates the internal structure of a C++ `pair`. At the bottom, a gray rectangular box contains the text `pair< First, Second >`. From the top of this box, two dashed purple lines extend upwards. The left line is labeled `_first` and terminates in a solid purple arrow pointing to a white rectangular box labeled `First`. The right line is labeled `_second` and terminates in a solid purple arrow pointing to a white rectangular box labeled `Second`. The labels `_first` and `_second` are positioned between the dashed lines and are rendered in a lighter gray font.
