

reverse_iterator::operator[]

reverse_iterator::operator[]

reverse_iterator::operator+

```
graph LR; A[reverse_iterator::operator[]] --> C[reverse_iterator::operator+]; B[reverse_iterator::operator[]] --> C;
```

The diagram illustrates a call to the `reverse_iterator::operator+` function. Two separate calls to `reverse_iterator::operator[]` are shown on the left, each with a blue arrow pointing to the `reverse_iterator::operator+` box on the right. The `reverse_iterator::operator+` box is shaded gray, while the `reverse_iterator::operator[]` boxes are white with black borders.
