

std::false_type

```
graph BT; A["has_allocator_type<T, typename>"] --> B["std::false_type"]
```

A diagram illustrating a relationship between two C++ types. At the bottom is a gray rectangular box containing the text `has_allocator_type` and `< T, typename >` on two lines. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box at the top. The white box contains the text `std::false_type`.

has_allocator_type
< T, typename >
